

# Environmental management Policy

- NEPES Corp. sets environmental policies as follows for the effective establishment and operation of an environmental management system that meets international standards and the requirements of stakeholders, including customers.
- NEPES Corp. prioritizes the establishment, implementation, and maintenance of an environmental management system to satisfy customers and continuously improve the environment in all activities such as product development and production.
- Accordingly, all executives and employees satisfy customers and stakeholders through quality, delivery, price, and environmental improvement, and practice the following to achieve environmental goals based on our management ideology.

- 
1. Realize customer satisfaction management to provide reliability to customers and stakeholders.
  2. Efforts shall be made to comply with domestic environmental laws and international conventions.
  3. Establish and implement environmental goals and detailed goals for continuous environmental improvement. In addition, the implementation status is regularly reviewed to strengthen and develop the environmental management system.
  4. Systematic education and training are regularly conducted so that all members can understand and implement the environmental management system.
  5. In order to realize eco-friendly workplaces, use energy and resources efficiently, suppress waste generation, and actively strive for recycling.
